

# The Invading Species Awareness Program

## Mysterysnail

Management and Removal

## Project

In 2021, the ISAP began working with the Coalition of Haliburton Property Owner's Association to address the increasing concern of invasive Chinese and banded mysterysnails in the Haliburton region.

With the acquisition of a Licence to Collect Fish for Scientific Purposes, this engaged group of volunteers spent the summer identifying, reporting, monitoring for, and removing these invasive snails. They surpassed this year's project goals and achieved the incredible results you see below.

**490,000**

banded mysterysnails removed

**63,000**

Chinese mysterysnails removed

**300+**

dedicated volunteers

**38 km**

of shoreline monitored

**26**  
**lakes**

reporting data

**250,000**

banded  
mysterysnails  
removed by a  
single volunteer

**7 CBC**

radio interviews, and many  
news articles

Are you a part of a lake association, cottage association, or a group of like-minded individuals that would like to become licenced to remove invasive mysterysnails in 2022?
